About Us

Manufacturing & Smart Technology Solutions for a Better Life

Since its founding in 2004, TEP Group International has grown from a modest craftsman's workshop to a global industrial leader with subsidiaries worldwide. At TEP Group Intl., we prioritize customer satisfaction by upholding our core values of reliability, quality, timeliness, and responsiveness to feedback, ensuring an exceptional client experience every time.

Our ambitious journey has taken us far and wide, enabling collaborations with some of the world's most renowned brands. Our ever-growing team of certified specialists drives cutting-edge advancements across diverse nations worldwide.

Our vision has remained steadfast throughout our journey: "Be the best in everything we do by offering technologically advanced products and services."

At TEP Group International, we enhance your quality of life with our high-quality products and smart technology solutions.

Vision

“To provide innovative solutions with passion to enhance the quality of life”

TEP Group International utilizes advanced technology to create products, services, and solutions that meet customer needs. Recent developments in the industry have been propelled by rapid innovation and the emergence of IoT (Internet of Things) and AI (Artificial Intelligence). TEP specializes in manufacturing a wide range of electric products emphasizing IoT.

Mission

“Be the best in everything we do by offering technologically advanced products and services”

With nearly 12 years of experience as a manufacturer, they continue to evolve their technological capabilities. They provide infrastructure solutions domestically and internationally while maintaining quality assurance standards for customer satisfaction.
